MAKE YOURSELF AT HOME

Settle in first.

Once you've dropped your bags, take a walk and get to know the neighbourhood. Find a spot for coffee, pick up a few things for breakfast and see what's nearby. This guide will help you choose where to eat and what to do during your stay, whether you have a full day to explore or just a couple of hours. Leave a little time for whatever catches your eye along the way.

First-time electricity basics

Ireland uses Type G: three rectangular-pin blades, 230 V and 50 Hz. A plug adaptor changes pin shape only; it does not convert voltage or frequency.

MATCH THE ITEM TO THE PROBLEM

Adapter, charger or cable?

An adapter changes plug shape. A charger is the power brick. A USB-C or Lightning cable is the lead: choose the connector that matches your phone. Prefer charger input marked 100–240 V~ (50/60 Hz); do not use a 110/120 V-only device on Irish mains without suitable conversion.
